

# Assure Lock<sup>®</sup> Lever

The Assure Keyless Lever is all you need on your front door. As a standalone digital lever, there is no need for an additional deadbolt lock, nor a latch or a separate door handle.

Designed for single-hole doors (doors without a deadbolt). The Assure Lever is easy-to-install and conveniently replaces existing lever locks or knobsets.

Access is easy - simply enter your code on the keypad, pull down the lever and you're in.

### **TOUCHSCREEN KEYPAD**

The capacitive touchscreen with backlit numbers means the numbers will never wipe away and there is no more need to carry a key.

### **PIN CODE MANAGEMENT**

One master PIN code, program up to 25 entry codes to share with people you trust - delete codes when you need to.

### **LOCKS AUTOMATICALLY**

Auto-lock to ensure your door is always securely locked when closed.

### **BATTERY BACK-UP**

Never lose power and get locked out. The lock can be energised with a 9V battery from the outside.

### **OPTIONAL SETTINGS**

Manage optional settings, including; volume, languages and privacy mode.

### **TAMPER ALARM**

Audible alarm sounds if attempting to forcibly remove outside lock from door.

### **HOME AUTOMATION COMPATIBLE WITH MODULE\***

Can be used as a standalone keypad lock or as a smart lock that can be upgraded with a module\* to integrate into a compatible home automation or security system – allowing lock management and remote access via your smartphone.

\*Check out network module options on Yale website
